The world does move, at least the Omaha World-Herald sees things differently from the old Herald, in its palmy days. If "Saloon Rule" or "Saloon Regulation" is made the issue, says the W.-H., in the city, there will be a loud call upon the thinking voters and tax payers to rise in their might and oppose the law and order which now prevail. Advertisement for editorial.

The W.-H. sounds a note of warning as follows: "If the saloons go into this campaign to capture or influence the municipal administration they will make the most stupendous blunder of their existence. They will increase the chances for prohibition in Nebraska about fifty per cent. Nothing can be devised to manufacture prohibition voters in Nebraska faster than saloon rule in Omaha, which ever party becomes the agency of it. The business men, property owners and intelligent voters of Omaha should appreciate this fact. There is absolute danger in reopening the all night and Sunday saloons, because thereby prohibition sentiment will be enormously strengthened. And in that event it ought to be." Parents should be careful that their children do not contract colds during the fall or winter months. Such colds weaken the lungs and air passages, making the child much more likely to contract other colds during the winter. It is this succession of colds that causes catarrh and bronchitis or paves the way for consumption. Should a cold be contracted, loose no time but cure it as quickly as possible. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold in a few days and leave the respiratory organs strong and healthy. For sale by all druggists.
